Neuromuscular/EMG Fellowship in Ottawa, Canada

NEUROMUSCULAR / EMG FELLOWSHIP:

The Ottawa Hospital NeuroMuscular Centre is accepting applications for 1 or 2 year funded Neuromuscular / Clinical Neurophysiology (EMG) fellowships!!

For more information, or to submit an application (CV and letter of intent), please contact Dr Ari Breiner (abreiner@toh.ca). Applications are due October 31, 2023.

Ottawa Neuromuscular Fellowship Program

The fellowship program offers:

-**1:1 teaching** sessions with 7 full-time and 3 part-time neuromuscular disease (NMD) specialists

-**General NMD and EMG clinics**, as well as **subspecialty clinics** (genetic neuromuscular clinic, myotonic dystrophy clinic, myasthenia gravis clinic, multidisciplinary ALS clinic, peripheral nerve trauma clinic).

-**Specialized techniques** (e.g single-fibre EMG, interpretation of MRI in myopathies, ultrasound for neuromuscular conditions, performing & interpreting muscle biopsies, etc).

-**Many research opportunities** including clinical research trials, quality improvement projects, translational research, and observational studies.

-Fellows are actively involved in the education of neurology residents both in-clinic and through didactic teaching sessions.

Potential fellows may be encouraged to apply for the NMD4C fellowship if relevant (Annual Neuromuscular Postdoctoral Research and Clinical Fellowships Funding Competition Now Open - latest neuromuscular research updates - NMD4C (neuromuscularnetwork.ca)) however separate funding also exists.
